

# Alumwellies

PM session

Alumwellies children have settled in well into their daily routine.

During the Autumn term, the children have enjoyed exploring their environment and playing with sand and water. Their favourite place is the messy tray where we have had messy activities, such as gloop and jelly with spiders. We also enjoyed using our imagination to play in the home area and used open ended resources to make our own stories and songs with adult support.

We looked at seasonal vegetables such as pumpkins, carrots, potatoes and parsnips. Children enjoyed cutting the vegetables into small chunks using plastic knives and at snack time we tasted the soup we made from these vegetables (developing fine motor skills, hand and eye co-ordination, introduction to new foods and textures).

Diwali week we enjoyed making pictures of fireworks and Diya's, and on Wednesday we made chapattis using atta. We loved making the dough and then rolling it into chapattis. At snack time we tasted the cooked chapattis and some of us asked for more. We also played a bhangra drum under the canopy and danced to Asian music.
