

# Magnets can rip holes in your child's gut

Magnets can be great fun. But it's really dangerous if a child swallows them.

They can attract to each other inside the body, cut off the blood supply and tear holes in the gut.

A child may need major surgery to remove them. So, keep them away from young children. And teach older children the risks.

If you suspect a child has swallowed magnets, get medical help straight away.
