

ALUMWELLIES
SPRING 2

The animal man brought lots of different animals to nursery. We enjoyed watching them and stroking them. The owl and the badger were soft, whilst the snake was cold. The bearded dragon and lizard were spiky. When the animal man shone the ultraviolet light on the scorpion he turned blue.

ANIMAL MAN

Happy
Mother's
Day

MOTHER'S DAY

Mother's Day

On mother's day we made special cards and sang a special song for our mummies. Then we gave them the presents we made to show how much we love them.

EASTER CRAFT DAY

We enjoyed making Easter bonnets with our mum and dad's help. We had lots of fun taking part in Easter activities such as an Egg hunt, decorating biscuits, playing skittles and playing in the sensory Easter tray.

MAKING PIZZA

We made our pizza's by spreading tomato puree on a slice of bread, then we sprinkled some cheese on it. Some of us also put sweet pepper on our pizza.

DUCKLINGS

At nursery we have been watching the ducklings grow. We held them very carefully and they felt very soft. We looked at them and noticed they have beaks and feathers. Ducklings also became excited and active as the weeks went on and they grew bigger.
