

As Autumn drew to a close we continued our Forest School sessions. By late October many of the trees had lost their leaves. The children took great pleasure walking through the piles of leaves and listening to them rustle and crunch beneath their feet.

Trowels were used to dig the soil and hunt for any remaining mini-beasts whilst the binoculars were helpful when looking for migrating birds.

The beginning of November saw us celebrate Diwali. We made cards and Diwa lamps from clay and enjoyed dressing up in traditional costumes.

Bonfire Night saw us pretend to be firefighters, using the water squirters to put out the "blaze".

Children in Need was the opportunity to raise money by wearing our favourite clothes, making spotty hats and taking part in lots of other fun activities.

In late November we were surprised to find the Nursery garden turn white with a blanket of snow. Red group couldn't wait to go out and play.

Snowballing was great fun but sledging was the most popular activity. It was lovely to see the children take turns as they pulled each other over the snow.

As Winter began we started to think about Winter birds, such as the robin. We talked about what we can do to make sure that the birds have enough to eat at this time of year.

We went for a walk to see if we could find any birds and then discussed the robin. We looked at lots of different pictures of robins before painting our own.
