

Alumwell Nursery Garden Adventures

Session 11 - Harvesting our broad beans

Today some parents came to help us and have a look around our allotment.

We had a very big job today to harvest all of our broad beans.

First of all we had to find a broad bean and pick it.

Then we had to split the broad bean to get to the broad beans inside.

Next we had to pick out all the broad beans.

We tasted some of our broad beans. Some people like to eat the broad beans straight from the pod, others like to take the outer layer off.

We collected a lot of broad beans.
