

The children in green group enjoy the winter weather outside, they explored the ice and snow.

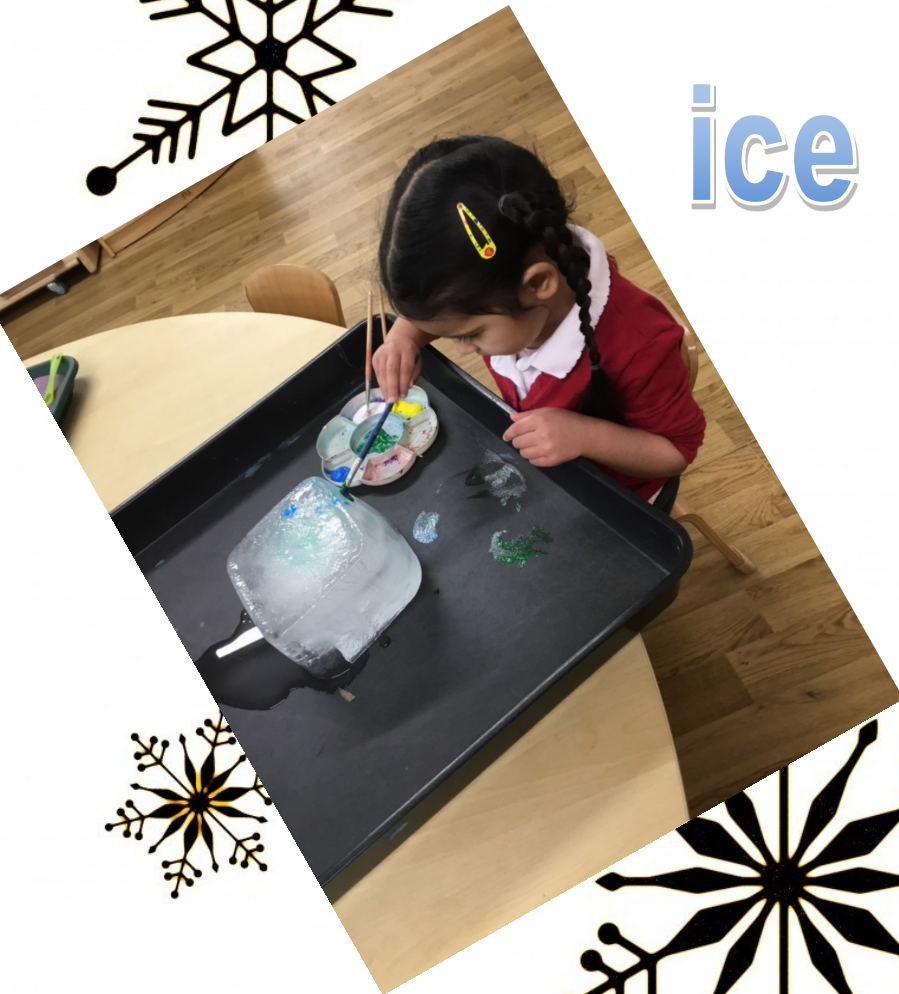

Our hyacinth bulbs have started to shoot so we take them inside nursery to watch them flower. We planted them in the Autumn

Finding icicles holding them in our hands and watching them melt. Leaving our ice mobile's and buckets of water out over night to see if they freeze.

ice painting

Exploring what happens to ice indoors

Can you make a snowman ?

The children learn facts about winter and we invite exploration of how the weather changes.

To develop happy, confident secure learners in
a safe and stimulating environment

**Having fun and
making memories
together**
