

**Welcome to Orange  
Group Am  
Summer Term 2**

Every Monday Ellie, our music lady visits the nursey to provide the children with engaging and enjoyable music sessions. Through singing, movement, and the use of rhythm and musical instruments, the children develop their listening skills , confidence, co-ordination and creativity!

The children have so much fun!

# Ellie Music

# Farm on Wheels

Farm on Wheels came to nursery and the children had the opportunity to see the animals and also be able to touch them. Stella had brought along some special animals with her, goats, lambs, a chicken, ducks and a turkey.

The children had a go at feeding the animals, also showed their confidence by stroking the animals. They all learnt the animals names too.

# Allotments

Lucy is our special visitor who visits our nursery each week to support the children in developing and maintaining our allotment. The children have been involved in growing a variety of fruits and vegetables including strawberries, potatoes, leeks, peas, onions and many others! Well done children...

# Sports Day

All the children in Orange Group had lots of fun taking part in the sports day outside. We had lots of fun with obstacle courses and sports challenges, high and low. Children developed their gross motor skills, co-ordination, balance and confidence. All the children did super well!

# African Drumming

The children had the exciting opportunity to participate in an African drumming experience within the nursery setting. During the session children played the drums and enjoyed dancing to the music. This enriching experience promoted cultural awareness and self-expression.
